

Deciding on a Quilting Design

Supply List

By: Barbara Shapel

This workshop will help participants who are just learning to quilt how to decide on a quilting design that will best fit the style of their quilt, the purpose of the finished quilt, and the skill of the quilter.

Workshop Supplies:

- Please bring to class a minimum of five to seven quilt tops that are ready to be quilted. We will discuss each quilt top as a group and give students recommendations on ways to quilt based on your machine quilting skill level and the expected use of the quilt.
- If you do not have five quilt tops, please bring other quilts that you feel you have successfully AND unsuccessfully quilted.
- Paper and pencil/pen for note taking.
- Digital camera (optional)
